JENNY HERNANDEZ

09175045559 | jennypatanag@gmail.com | github.com/Nej2005

EDUCATION

Pamantasan ng Lungsod ng Pasig — Pasig City, Metro Manila
Bachelor of Information Technology | President's Lister — *Aug 2023*

Rizal High School — Pasig City, Metro Manila
Science, Technology, Engineering, & Mathematics (STEM) | With Honors — *Aug 2021 – Jul 2023*

EXPERIENCE

Junior Software Developer — Sep 2026 – Present
CareerCat | Contract · Remote

- Developed and maintained JavaScript userscripts and browser automation tools to streamline online job application workflows and form autofilling.
- Built automation workflows using Node.js and NocoBase, including dynamic website configurations and database management.
- Performed PostgreSQL queries, data maintenance, and browser-based testing to identify issues and improve automation reliability.

PROJECTS

TUKLAS — AI-Powered Examination System | *Next.js, React, TypeScript, Node.js, Python, Groq AI, Random Forest*

- Developed and tested an AI-powered examination system integrating automated test generation, real-time proctoring, and machine learning-based academic dishonesty prediction.
- Implemented and evaluated browser and webcam monitoring features to detect suspicious activities, including tab switching, fullscreen exits, face absence, and prohibited objects.
- Conducted functional testing, documented system issues, and supported the evaluation of a Random Forest model for predicting potentially suspicious examination behavior.

Student Violation Management (SVMS) | *React, Node.js, Express, PostgreSQL, Tailwind CSS*

- Built the backend of the Student Violation Management System for the CCS Department in my College University.
- Developed relational PostgreSQL database schemas with optimized queries for fast retrieval, updates, and role-based portal access control.
- Developed backend functions and API logic for creating, retrieving, updating, and tracking violation data.

Barbeque ni Bebang | **Official Web App** | *React, TypeScript, Vite, Tailwind CSS*

- Developed a responsive digital storefront web application for a local food business in Pasig City.
- Integrated direct Facebook Messenger ordering links to streamline customer inquiry-to-order conversions.

AWARDS & HONORS

3rd Place – Best Paper, Cluster 2 — *Oct 2026*
4th Regional Student Research Colloquium | TUKLAS

2nd Place – Best Presenter, Cluster 2 (Team Award) — *Oct 2026*
4th Regional Student Research Colloquium | TUKLAS

SKILLS

Programming: Java, PHP, JavaScript, HTML, CSS, SQL, PostgreSQL, NodeJS, ReactJS, Python
Technical/Documentation: Notion, Flowcharting & System Diagrams, Machine Learning
Developer Tools: Git, GitHub, Supabase, Figma, VS Code, AI Engineering Tools (ChatGPT, Codex, Antigravity)
Soft Skills: Leadership, Communication, Problem-Solving, Collaboration

CERTIFICATIONS

Vibe Coding Pro: Elevate Your Skills with AI-Driven Coding
Alibaba Cloud Academy (2025 – 2028)

SHE++ Masterclass on Alibaba Cloud System
PhilDev, Wells Fargo & Alibaba Cloud (2025)

SHE++ Technopreneurship & Leadership Workshop Series (3-Part)
PhilDev & Limitless Lab (2025)

Packetworx LoRaWAN & IoT Workshop Series (3-Part)
Packetworx Inc. & KadaKareer (2026)
