EDUCATION

Pamantasan ng Lungsod ng Pasig — Pasig City, Metro Manila
Bachelor of Information Technology | President's Lister — *Aug 2023*

Rizal High School — Pasig City, Metro Manila
Science, Technology, Engineering, & Mathematics (STEM) | With Honors — *Aug 2021 – Jul 2023*

PROJECTS

PLP ExamGuard — Capstone Project | *Next.js, React, TypeScript, Node.js, Supabase, Tailwind CSS*

- Architected and developed the backend services for a secure online examination platform designed to monitor student activities and maintain assessment integrity.
- Built violation monitoring and logging mechanisms to track suspicious student actions, record activity timestamps, and maintain tamper-resistant audit trails.

Student Violation Management (SVMS) | *React, Node.js, Express, PostgreSQL, Tailwind CSS*

- Built the backend of the Student Violation Management System for the CCS Department in my College University.
- Developed relational PostgreSQL database schemas with optimized queries for fast retrieval, updates, and role-based portal access control.
- Developed backend functions and API logic for creating, retrieving, updating, and tracking violation data.

PLP Lost and Found System | *React, Vite, Node.js, Express, Supabase, Tailwind CSS*

- Engineered backend API routes and logic for a campus-wide item reporting and claim management web application.
- Implemented item matching algorithms and ownership verification questionnaires to validate user claims prior to recovery authorization.

Barbeque ni Bebang | Official Web App | *React, TypeScript, Vite, Tailwind CSS*

- Developed a responsive digital storefront web application for a local food business in Pasig City.
- Integrated direct Facebook Messenger ordering links to streamline customer inquiry-to-order conversions.

CERTIFICATIONS

Vibe Coding Pro: Elevate Your Skills with AI-Driven Coding

Alibaba Cloud Academy (2025 – 2028)

SHE++ Masterclass on Alibaba Cloud System

PhilDev, Wells Fargo & Alibaba Cloud (2025)

SHE++ Technopreneurship & Leadership Workshop Series (3-Part)

PhilDev & Limitless Lab (2025)

Packetworkz LoRaWAN & IoT Workshop Series (3-Part)

Packetworkz Inc. & KadaKareer (2026)

SKILLS

Programming: Java, PHP, JavaScript, HTML, CSS, SQL, PostgreSQL, NodeJS, ReactJS, Python

Technical/Documentation: Notion, Flowcharting & System Diagrams, Machine Learning

Developer Tools: Git, GitHub, Supabase, Figma, VS Code, AI Engineering Tools (ChatGPT, Codex, Antigravity)

Soft Skills: Leadership, Communication, Problem-Solving, Collaboration
